

ENVIRONMENT POLICY

BBC Bircher Automation WASTE hierarchy

REFUSE

saying no to things we consider bad or even dangerous, 3 TGS materials, REACH, RoHS

REDUCE

minimize waste and consumption in our operations (3D digital twin model)

DISPOSAL

materials that cannot be reused, repurposed, or recycled, we follow environmentally responsible disposal practices

REUSE

reuse components in other applications and boxes from suppliers

RECYCLE

waste treatment companies that assist in recycling not only paper and plastic but also components containing heavy metals

REPURPOSE

sample control panels for educational purposes for our employees, collaboration with schools support hobbyist groups

- **Facility Management** - energy consumption optimisation, photovoltaics to power our effort sustainably
- **Energy Efficiency** - investment in renewable energy sources, such as the new photovoltaic systems, to power our operations sustainably
- **Sustainable materials** - partnering with suppliers who also adhere to environmentally responsible practices
- **Waste Reduction** - streamlining our production processes, implementing comprehensive recycling programs
 - 6 principles of Waste hierarchy
 - 3D digital twin to reduce (potential) waste
 - Facilitating a Second Life for Packaging (i.e. using boxes from suppliers)
- **Promoting Healthy Lifestyle** - i.e. via Sustainable Commuting - "Do práce na kole" (Cycling to work)

15+ countries covered

UL / CE certification

70+ years of cumulative experience with EPLAN

Private owned, part of BBC Group

Thousands of projects completed

As a reliable partner for your control cabinet project, we're ready to assist. **Let's connect now!**
