

RoHS: Directive 2011/65/EU, Directive EU 2015/863 **REACH: Regulation EC 1907/2006/EC** 

BBC Bircher Czech s.r.o.; Business unit: BBC Bircher Automation - BAM

work in close partnership with our suppliers to ensure that components in our products are compliant with all relevant statutory provisions.

BAM support objectives of REACH and RoHS to improve protection of human health and the environment from the risks that can be posed by chemical substances.

BAM is avare of the evolving REACH and RoHS requirments that are updated by EU Agencies.

BAM is committed to help our customers comply with applicable REACH and RoHS due diligence and disclosure requirements.

BAM expects suppliers, manufacturers to have robust environmental programs that adherer to the requirements of REACH and RoHS.

**BAM** is an assembler of control cabinets (i.e. "a service provider") not a component (i.e. product) manufacturer, designer or importer.

## **REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals)**

Obligation to register substance sput on the market in the EU:

• BAM does not manufacture in the EU or import from outside the EU substances in quantities of >1tonne per annum so has no registration obligations

Obligation to register intentionally released substances from products put on the the market in the EU:

· No products supplied containing substances which are intentionally released are manufactured by BAM (i.e. either released or imported), so we have no registration obligations

Obligation to inform customers of presence of SVHCs in products:

- BAM shall inform its customers of the presence of any Substance of Very High Concern (SVHC) in and product it supplies if present an > 0,1% by weight of the product as soon as this information is avaiable from our suppliers
- · This information shall be submitted automatically and shall comprise the name of the SVHC and any steps needed for safe use of the final product (BAM expects suppliers to provide a Safety Data Sheet or other document prescribing the safe handling of their procusts which contains SVHCs in excess of 0,1% in any of the products homogenous materials)
- When BAM is informed by its suppliers that an SVHC is present in an supplied product used, we shall forward this information with the product when supplied

## RoHS (Restriction of Hazardous Substances in Electrical and Electronic Equipment)

· BAM is an assembler of control cabinets, therefore does not manufacture or design any of the components used in BAM products; compliance information is therefore obrained directly from our suppliers. We presume the current components supplied are compliant, will continue to be RoHs compliant, unless we are informed otherwise.
